## 5 Tips for a Successful Barbara Allen-Hagen Application

The 2014 PbS Barbara Allen-Hagen Award application is now available. Here are some tips to help you complete your award-winning application!

### 1. **Follow directions.**

Be sure to follow the instructions for each part of the application. Some questions have a word limit while others do not. Use a word processing program (like Microsoft Word) to track your word count.

### 2. **Make every question count.**

Answer each question thoughtfully. The application should demonstrate that significant effort went into every question. If a question has multiple components, be thorough and include an answer for each part of the question. Don't forget to proofread and check for any typos or misspellings (a word processing program can help with that too!).
